Advanced Design and Building

Our building design and construction management courses are highly regarded in the building industry and will connect you with employers. They are designed to give you the practical skills, knowledge and qualifications to work at the para-professional level in residential and commercial construction. You may also receive credit towards a construction management, architecture or interior design degree when you complete your diploma or advanced diploma course with us!

Building Design and Construction Management		Possible career outcomes
CPC40110	Certificate IV in Building and Construction (Building) ~ F	<i>Building supervisor Estimator Contracts administrator</i>
CPC50220	Diploma of Building and Construction (Building) F	<i>Building supervisor Estimator Registered builder domestic or commercial</i>
22477VIC	Advanced Diploma of Building Design (Architectural)	<i>Building designer Draftsperson</i>
Interior Design		Possible career outcomes
MSF40118	Certificate IV in Interior Decoration	<i>Retail decorator/design consultant Interior consultant</i>
MSF50218	Diploma of interior Design	<i>Colour consultant Architectural interior designer</i>

The Building Design course truly did give real life experience and gave me great grounding with practical experience. Being job ready meant I was able to work while I was studying and the varied experience of the teaching staff and their enthusiasm to give us the best opportunities and experiences was fantastic."
