**Document management**

**Titling Conventions for Documents**

The advantages to standardising the titling for registering hardcopy documents and saving electronic documents are:

- Access documents efficiently and rapidly.
- Reduce redundancy or duplication of documents and printing multiple copies.
- Avoid loss of information.
- Sharing documents easily.
- Finding the latest and most current version of a document.

When saving documents in CM, the title field is very important, as this metadata is what makes the document searchable and retrievable.

- Always write in whole words, abbreviations are permitted only in brackets after the whole word.
- What is the document about? This is about the content of the document
- Whom is the document produced for? This is the audience of the document
- Why is the document produced? This is the purpose or activity of the document.
- When is the document produced? This is a date field and is constructed in the YYYY-MM-DD format.

**All documents**

All documents that are created to support the ongoing business should be captured onto CM or filed in an official Gordon folder.

ACTION	RESPONSIBILITY	GUIDANCE
<b>Saving any supporting documents onto CM</b>	Author	<ul style="list-style-type: none"> <li>• Save documents to CM electronically</li> <li>• Assign the electronic documents to an appropriate folder on CM</li> <li>• Make sure documents are marked final(read only)</li> <li>• File hardcopy documents into an appropriate Gordon folder</li> </ul> <p>If you are unsure which folder to place a document in, please seek guidance from Records Manager.</p>

## Email

If an email supports the ongoing business of The Gordon it is to be saved into CM using the catalogue button within Outlook Folder. If the answer to any of the following questions is 'yes' then the email should be registered on CM or can be printed and placed onto an official Gordon folder. Please seek advice from Records Manager to discuss CM if necessary.

The following questions can assist in determining if an email supports ongoing business:

- Was the email received in the course of my work?
- Does the email document an action approved?
- Does the email provide advice, a decision or give a direction?
- Does the email relate to a project or task that I am working on?

## Document version control

CM will automatically capture revisions of your documents. Every time a document is checked out of CM, (editing) then checked back in (saving) a new revision would be created.

## Disposal of Records

ACTION	RESPONSIBILITY	GUIDANCE
<p><b>Disposal of Records</b></p>	<p>Records Manager and relevant Manager</p>	<ul style="list-style-type: none"> <li>• All disposal of records should be first consulted with the Records Manager as there are disposal and retention authorities and standards that disposal must comply with.</li> <li>• Sensitive records are disposed of in a secure manner in secure shredding bins.</li> <li>• The Records Manager documents all disposals on CM.</li> <li>• The company responsible for secure record disposal will provide a certificate of destruction for records.</li> </ul>
